</tr>
<tr>
<td><strong>Phases of attendance</strong></td>
<td>The phases of attendance comprise 42 days over the two years and are offered in compact units dependent on the selected discipline. They last two or four successive days during the week (lessons held from 9 a.m. till 6 p.m.).</td>
</tr>
<tr>
<td><strong>Mandatory and elective subjects</strong></td>
<td>The programme includes mandatory and elective modules. The mandatory modules provide the core skills and competencies in the areas of statistics, strategic management, marketing, accounting&amp;controlling, financing&amp;business development and communication&amp;negotiation. In addition, students choose one major, which may come from the following disciplines: fitness economics, sports economics, health care management or corporate health care management. The qualification aims and the list of priorities in the Master's program &quot;Sports-/Health Care Management&quot; will depend on these individually selected study areas. Each department focuses on a specific subject area of the larger overall area of &quot;Sports-/Health Care Management.&quot;</td>
